

## **Oliver Friedli Three Miles Off – Production Notes**

Three Miles Off is the continuous album of „Inside Outside“ . While Inside Outside was telling of inner-places, Three Miles Off shows a view stories about a travel passing a lot of memories. The album tells of several landscapes, villages and a view of their short stories in 10 originals written by Oliver Friedli.. However, it is definitely a jazz album but it shows many influences of classical music. The listener will be remembered for example to Claude Debussy and Eric Satie. At least a very nice production with a lot of drive!

Oliver Friedli (piano), Alex Hendriksen (tenor sax/soprano sax), Fernando Fontanilles (bass), Andreas Hoerni (drums), Daniel Woodtli (trumpet/fluegelhorn on track 3, 5)
